TROPICAL CYCLONE BULLETIN NR. 22

Typhoon JENNY (KOINU)

Issued at 11:00 PM, 04 October 2023 Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TYPHOON "JENNY" INTENSIFIES AND IS NOW PASSING NORTH OF BATANES PROVINCE TOWARDS SOUTHERN TAIWAN

Location of Center (10:00 PM)

The center of the eye of Typhoon JENNY was estimated based on all available data at **125 km** North of Itbayat, Batanes (21.9°N, 121.8°E)

Intensity

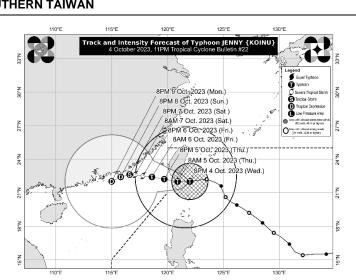

Maximum sustained winds of **165 km/h** near the center, gustiness of up to **205 km/h**, and central pressure of **940 hPa**

Present Movement

Westward at 15 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to 560 km from the center

TRACK AND INTENSITY FORECAST								
Date and Time	Center Position			Intensity		Movement		
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	dir. and speed (km/h)		
12-Hour Forecast 8:00 AM 05 October 2023	22.0	120.9	165 km Northwest of Itbayat, Batanes	155	ΤY	W 10		
24-Hour Forecast 8:00 PM 05 October 2023	22.2	119.7	270 km Northwest of Itbayat, Batanes (OUTSIDE PAR)	130	ΤY	W 10		
36-Hour Forecast 8:00 AM 06 October 2023	22.4	118.6	380 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	120	ΤY	WNW 10		
48-Hour Forecast 8:00 PM 06 October 2023	22.5	117.8	460 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	110	STS	W Slowly		
60-Hour Forecast 8:00 AM 07 October 2023	22.6	117.1	530 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	100	STS	W Slowly		
72-Hour Forecast 8:00 PM 07 October 2023	22.6	116.6	580 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	85	TS	W Slowly		
96-Hour Forecast 8:00 PM 08 October 2023	22.4	115.8	650 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	55	TD	WSW Slowly		
120-Hour Forecast 8:00 PM 09 October 2023	22.0	115.0	720 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	45	TD	WSW Slowly

TROPICAL CYCLONE BULLETIN NR. 22

Typhoon JENNY (KOINU)

Issued at 11:00 PM, 04 October 2023 Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT							
TCWS No.	Luzon	Visayas	Mindanao				
3	Batanes	-	-				
Wind threat: Storm-force winds	Warning lead time: 18 hours Range of wind speeds: 89 to 117 km/h (Beaufort 10 to 11) Potential impacts of winds: Moderate to significant threat to life and property						
2 Wind threat: Gale-force winds	The northern portion of Babuyan Islands (Babuyan Is., Calayan Is.)	-	-				
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property						
1 Wind threat: Strong winds	The rest of Babuyan Islands, the northern portion of mainland Cagayan (Santa Ana, Gonzaga, Buguey, Santa Teresita, Lal-Lo, Camalaniugan, Pamplona, Claveria, Aparri, Ballesteros, Abulug, Allacapan, Sanchez-Mira, Santa Praxedes, Lasam, Gattaran), the northern portion of Apayao (Calanasan, Pudtol, Luna, Santa Marcela, Flora), and the northern portion of Ilocos Norte (Piddig, Bangui, Vintar, Burgos, Pagudpud, Bacarra, Adams, Pasuquin, Carasi, Dumalneg, Laoag City)	-	-				
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property	1	1				

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Forecast accumulated rainfall from tonight to tomorrow evening

• 100-200 mm: Batanes

Forecast rainfall are generally higher in elevated or mountainous areas. Under these conditions, **flooding and raininduced landslides are possible** especially in areas that are highly or very highly susceptible to these hazards as identified in hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

In addition, JENNY will continue to enhance the Southwest Monsoon and bring occasional rains over the western portions of Luzon in the next 3 days. For more information, refer to **Weather Advisory No. 9 for Southwest Monsoon** issued at 11:00 PM today.

TROPICAL CYCLONE BULLETIN NR. 22

Typhoon JENNY (KOINU)

Issued at 11:00 PM, 04 October 2023 Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

HAZARDS AFFECTING LAND AREAS

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Moderate to significant impacts** from storm-force winds may be observed within any of the areas under Wind Signal No. 3
- Minor to moderate impacts from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- Minimal to minor impacts from strong winds are possible within any of the areas under Wind Signal No. 1.

The enhancement of the Southwest Monsoon by JENNY will bring **gusty conditions** for the next 3 days over the following areas not under any Wind Signal, especially in coastal and upland/mountainous areas exposed to winds:

Tonight through tomorrow: The southern portion of Aurora, Romblon, and portions of CALABARZON, Metro Manila, Bataan, and Bicol Region.

HAZARDS AFFECTING COASTAL WATERS

Under the influence of JENNY, a **Gale Warning is in effect** for the coastal waters along the seaboards of Northern Luzon. For more information, refer to **Gale Warning No. 7** issued at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- JENNY is forecast to make landfall over the southern portion of Taiwan tomorrow morning and exit the Philippine Area of Responsibility (PAR) between tomorrow afternoon and evening. Outside the PAR region, JENNY will continue to move westward (becoming west southwestward by Sunday) slowly over the Taiwan Strait and the coastal waters of southeastern China.
- Land interaction during its passage over the rugged terrain of southern Taiwan will weaken the typhoon considerably. Once over the Taiwan Strait, additional cool dry air from the north will entrain into JENNY, resulting in continued weakening. JENNY may become a tropical depression by Sunday.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
